Glove Bubble

The Glove Bubble is a bench mounted enclosure designed to provide a sealed environment for samples as well as offer control of atmospheres internally.

The Glove Bubble is a fully portable system with gas connection and nitrile anti-static gauntlets as standard.

- Sealed environment
- Ergonomic Design
- Pre Tested and Validated
- Easy to Install
- Easy to Clean and Maintain
- Lightweight and Portable

Lab Bubble is a registered European Design: No. 001324610-0001

ISS13

FUNCTIONAL SPECIFICATION

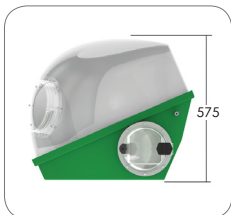

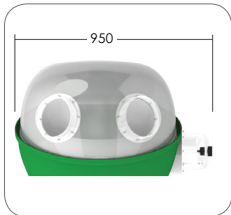

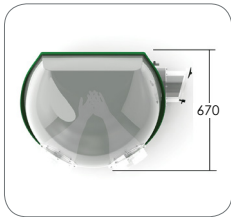

The Glove Bubble is a bench mounted enclosure that provides a sealed environment for samples. Each Glove Bubble includes utility (gas) connections to offer the control of atmospheres internally.

The inflatable seal expands to protect samples from any external contaminants and atmospheres. A transfer tunnel allows the user controlled access into the enclosure without having to remove the top cover.

COLOURS AVAILABLE

DIMENSIONS

TECHNICAL SPECIFICATIONS

- Performance:** Pressure decay tested
- Gloves:** Butadyl Antistatic Gauntlet
Conforming to EN374, EN388
- Utility:** Internal power socket
Push fit 8mm pneumatic gas connection x 2

ACCESSORIES

- Temperature Monitoring
- Humidity Monitoring
- Additional Utility Ports

CONSTRUCTION

- Weight:** 10kg
- Base:** 10mm Chemically resistant, High Density Polyethylene
- Top:** 6mm Chemically resistant Acrylic
- Gloves:** Butadyl
- Inflatable Seat:** FDA Approved Silicone
- Transfer Hatch:** Cast Acrylic

INSTALLATION

- User Install, No Engineer Required
- Pre Validated and Tested System
- Documentation Pack Provided
